- Integrated Stripe payment processing to facilitate seamless and secure financial transactions within the system, enhancing payment efficiency for both the company and vendors.
- **Technologies used :-Node.js,Next.js,Stripe**

Implemented a Seed Distribution Management System to streamline the distribution process of seeds.

From April 2023 to September 2023 Indipendent client Kigali,Rwanda

- Designed and developed a robust Seed Distribution Management System, incorporating features for efficient tracking, inventory management, and reporting throughout the seed distribution lifecycle.
- Collaborated with stakeholders, including seed manufacturers and agricultural entities, to understand their unique requirements and tailor the system to meet their specific needs.
- Implemented a user-friendly interface for seamless data input, retrieval, and analysis, enhancing the overall usability of the system for end-users.
- **Technologies used :-Node.js,Next.js,Mobile money,reactnative**

I.T Associate(Junior software developer)

Since October 2023 Urwego Bank Kigali,Rwanda

- Utilizing Next.js to create dynamic and engaging web experiences
- Leveraging Node.js to build a robust and scalable back-end infrastructure, ensuring high-performance handling of critical banking operations.
- Designing and implementing user interfaces that are not only visually appealing but also highly intuitive, contributing to an improved user experience.
- Integrating various technologies seamlessly into our digital framework, fostering a cohesive and efficient tech stack.
- Implementing solutions to digitize and streamline common tasks, leading to increased operational efficiency across departments.

Skills

Skilled in java
Experienced in Java, though primarily in academic settings, looking to transition and apply skills to practical projects.

Skills

Skilled in Frontend Engineering with javascript REACTJS
Fluent in React.js, I excel in frontend engineering, creating dynamic, user-friendly web applications.

Skilled in backend design using javascript node.js express and java springboot
Proficient in backend design using JavaScript with Node.js and Express, showcasing practical experience in real-world projects. Additionally, academically skilled in Java Spring Boot.

Skilled in Frontend engineering in JAVA using JSF and JSP
Proficient in frontend engineering with Java, specializing in JSF and JSP, with academic expertise and eager to apply these skills to real-world projects.

Skilled in database design and implementation using SQL and NOSQL
Proficient in database design and implementation with expertise in SQL and NoSQL databases, adept at designing, learning, and implementing optimal database solutions.

skilled in html,css,bootstrap,tailwind and javascript
Proficient in web design with expertise in CSS, HTML, Bootstrap, Tailwind, and JavaScript, adept at crafting dynamic and maintainable web applications.

Skills

Skilled in javascript

Proficient in JavaScript, fluent in real-world applications with a proven track record of numerous projects on GitHub.

Skilled in Python

Proficient in Python, with practical experience applying machine learning to various projects.
